OUR STORY

About Hoist & Garage

H&G HOIST & GARAGE
COMPLETE SOLUTIONS FOR AUTO WORKSHOPS

For over 20 years, Hoist & Garage has been working inside New Zealand automotive workshops of every size, installing, servicing, certifying, and repairing just about every brand of workshop equipment on the market. That experience gives us something a supplier alone can't offer - we know how equipment performs in the real world, not just on a specification sheet. We understand how New Zealand workshops operate because we've spent decades helping keep them running safely, efficiently, and productively.

Established in 2005, Hoist & Garage built its reputation through installation and service. No showroom, no catalogue. Just a team that turned up, did the work, and earned a reputation for keeping New Zealand workshops running.

After years of working side by side, Hoist & Garage and Treadway Equipped are now one business – following the 2025 acquisition of Liftech and the 2026 acquisition of Treadway Equipped, bringing workshop fit-outs, equipment specification and supply, installation, certification and servicing together under one roof.

Today, Hoist & Garage combines workshop design, equipment supply, installation, servicing, certification and ongoing support under one roof. It's this combination of practical experience, trusted products and nationwide support that allows us to deliver on a simple promise:

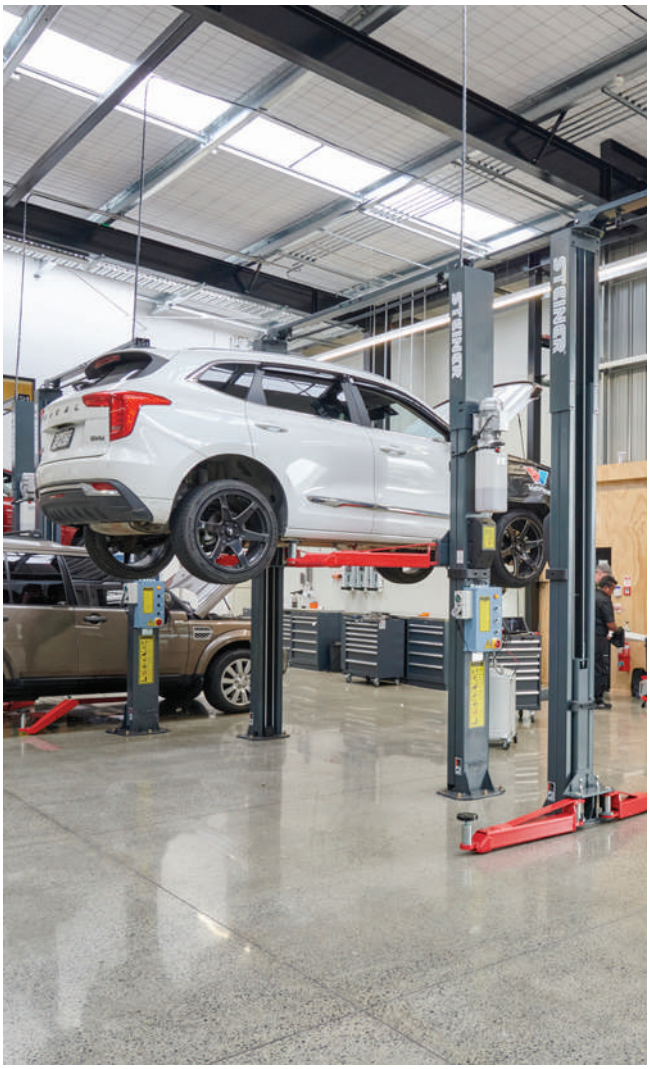

One team. Complete workshop solutions.

Our office and warehouse are based in Auckland, with team members spread across the regions. Wherever your workshop is, we supply equipment and services New Zealand wide.

Talk to us about your workshop:

OUR PROMISE TO YOU

We are committed to customer satisfaction.

All our products are covered by our 100 Promise.

100 PERCENT 100 DAYS SATISFACTION

If you are not 100% satisfied with your equipment, Hoist & Garage will repair, replace or refund the equipment free of charge within the first 100 days.

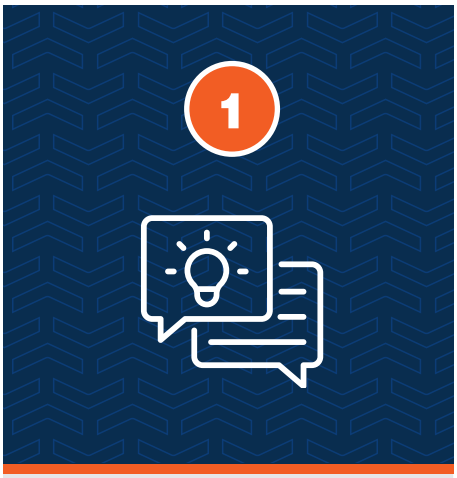

ONE TEAM

Complete workshop solutions.

Most equipment suppliers stop at delivery. We don't.

From the first conversation to years after installation, our team is there to help you make the right decisions, get the most from your investment, and keep your workshop performing at its best.

OUR PROCESS

Listen

Every project starts with understanding your workshop.

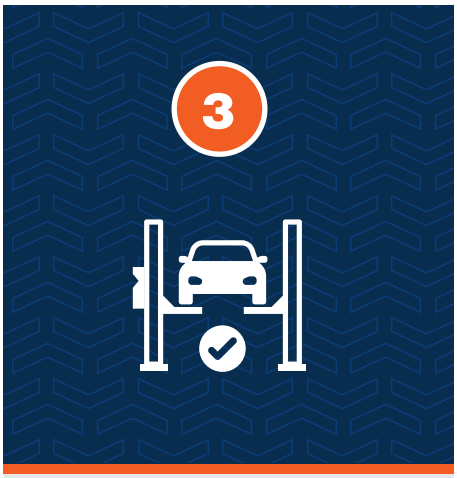

We take the time to learn about your business, your vehicle mix, your team, and your goals before recommending a solution. Where needed, we'll visit your site to make sure the equipment fits your workflow, not just your floor plan.

Recommend

Because we've worked on just about every brand of workshop equipment, our recommendations are based on practical experience, not just specifications.

Whether it's a single hoist or a complete workshop fit-out, we'll recommend the equipment that's right for your workshop, your technicians, and your budget.

Install

Installation is where experience matters.

Our technicians install and service equipment every day. They know what it takes to deliver a safe, efficient result that performs properly, from day one and for years to come.

4

Certify

Every hoist installation is commissioned and certified to AS/NZS 2550.9 before we leave.

Each installation includes a unique QR code linking directly to your equipment's service history, making future servicing and support quick and simple.

5

Train

We make sure your team leaves confident using their new equipment.

Whether it's a quick handover or dedicated on-site training, we tailor every session to suit your workshop and your people.

6

Support

Installation is just the beginning. Preventative servicing, annual certification, repairs and technical support are all delivered by one of New Zealand's largest mobile technician fleets.

And because we support all brands, we can help manage your entire workshop through one service programme.

Tyre Changers

ITEM **ST240**

ST240 Tyre Changer

The Steiner ST240 Tyre Changer with its simple and practical design is excellent value and can meet the needs of regular tyre service.

- Rim clamping from outside: 10–18″
- Rim clamping from inside: 12–21″
- Comes with tyre lever, pressure gauge, plastic covers, and paste bucket
- Helper arms available

2 YEAR WARRANTY

ITEM **ST260**

ST260 Tyre Changer

The Steiner ST260 is the perfect option for car dealerships, workshops and garages that have a tyre changing facility or want to get into changing tyres.

- Rim clamping from outside: 12–24″
- Rim clamping from inside: 13–26″
- Comes with tyre lever, pressure gauge, plastic covers, and paste bucket
- Shown with optional helper arms

2 YEAR WARRANTY

ITEM **ST280HA**

ST280HA Tyre Changer

Perfect for workshops and dealerships who are stepping up their tyre changing volume.

- Single-phase, variable speed between 6 and 13 rpm.
- Direct drive turntable for instant power and torque.
- Rim clamping from outside: 11–24″
- Rim clamping from inside: 13–26″
- Comes with helper arms, tyre lever, pressure gauge, plastic covers, and paste bucket

2 YEAR WARRANTY

ITEM **TC3020**

RAE.2102 Tyre Changer

The ultimate high volume tyre changer, 100% Italian made with 25" table. Variable torque 6-12 rpm mini inverter single phase motor and 14" max rim width.

- Rim diameter - external clamping: 10–22″
- Rim diameter - internal clamping: 14–24″
- Max wheel overall diameter 39" (990 mm)
- Max wheel width: 14" (355.6 mm)
- Bead breaker force: 2900 kg
- Operating pressure: 8-10 bar (145 psi)
- Torque: 110 kgm
- Helper arms available

2 YEAR WARRANTY

ITEM **TC3030**

RASE.2124 Leverless Tyre Changer

Heavy duty tyre changer designed for demanding high volume environments, with variable torque 6-12 rpm mini inverter single phase motor.

- Heavy-duty self-centring turntable for rims 10″ to 24″
- Variable speed motor gives excellent torque at low speeds
- Pressure regulator with manometer and automatic lubrication
- Quick-release mounting head. Upright pole plus rollover tyre recovery system with triple play.
- Bead breaker has 2 positions and a blade that swivels to accommodate all wheels comfortably, plus a double acting ram to speed up the process
- Pneumatic mounting arm for ease of use and accurate placement of the mounting head, with helper arms available

2 YEAR WARRANTY

ITEM **1692401001**

TC22 Pro Tyre Changer

A robust automatic tilt-back tyre changer for everyday workshop use. Its TCX.PRO assistance column provides the support needed to safely handle conventional, UHP and run-flat tyres.

- Square self-centring turntable with a 10" to 25" working range
- Two rotation speeds: 8 and 16 rpm
- Three-phase power supply
- Adjustable bead breaker handles tyres up to 12" wide
- Automatic tilt-back mounting column with pneumatic locking
- TCX.PRO assistance column with bead roller, travelling bead pusher and bottom disc
- WDK-approved for secure mounting and demounting of UHP and run-flat tyres

2 YEAR WARRANTY

ITEM **1692401004**

TC45 Pro2 Tyre Changer

A robust automatic tilt-back tyre changer for high-volume workshops. Its TCX.PRO2 assistance column provides support to safely handle UHP, run-flat and larger tyres.

- Square self-centring turntable with a 10 to 27″ working range
- Two rotation speeds: 8 and 16 rpm
- Three-phase power supply
- Premium TCX.PRO2 assistance column with bead roller and travelling bead pusher
- Independently adjustable assistance tools provide greater flexibility and control
- Lever-operated bead breaker handles tyres up to 15" wide
- WDK-approved for secure mounting and demounting of UHP and run-flat tyres

2 YEAR WARRANTY

ITEM **1692401006**

TC47L Pro3 Tyre Changer

A premium leverless tyre changer for demanding workshops. Its reinforced TCX.PRO3 assistance column safely handles difficult UHP, run-flat and larger tyres.

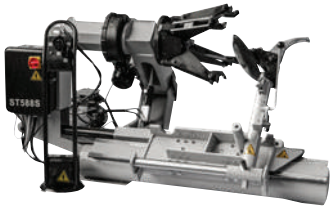

- 230V single-phase power with infinitely variable rotation from 0–16 rpm
- Square self-centring turntable with a 10" to 27" working range
- Leverless demounting reduces tyre stress and simplifies difficult tyre changes
- Reinforced TCX.PRO3 assistance column with multiple bead-handling tools
- Lever-operated bead breaker handles tyres up to 17" wide
- WDK-approved for secure mounting and demounting of UHP and run-flat tyres

2 YEAR WARRANTY

ITEM **ST588S**

ST588S Truck Tyre Changer

The ST588S is built to the highest industry standards. Equip your workshop with this premium quality Truck Tyre Changer to become self-sufficient and save time and money. Complies with CE requirements ensuring total safety during operation.

- Rim diameter: 14–26"
- Rim width: 1000 mm
- Hydraulic power: 130-150 bar
- Maximum wheel diameter: 1600 mm
- Hydraulic station motor power: 1.5 kW
- Main shaft motor power: 1.8 kW

2 YEAR WARRANTY

ITEM: **1692401015**

Akimbo Mk2 Leverless Center-post Tyre Changer

The premium leverless tyre changer designed for fast, safe handling of conventional, UHP and runflat tyres. Center-post clamping, automatic tool positioning and an integrated wheel lift make demanding tyre changes easier while helping protect rims from damage.

- Leverless center-post design with no tool contact on the rim
- Automatic tool and bead breaker positioning for 10" to 33" rims
- Laser-guided positioning helps prevent rim damage
- Double bead breaker discs with independent pneumatic control
- Integrated wheel lift supports wheels up to 80 kg
- Pneumatic bead pushing arm for easier UHP and runflat tyre handling
- Variable rotation speed: 0–18 rpm
- Single-phase power supply
- WDK-approved for UHP and runflat tyres

2 YEAR WARRANTY

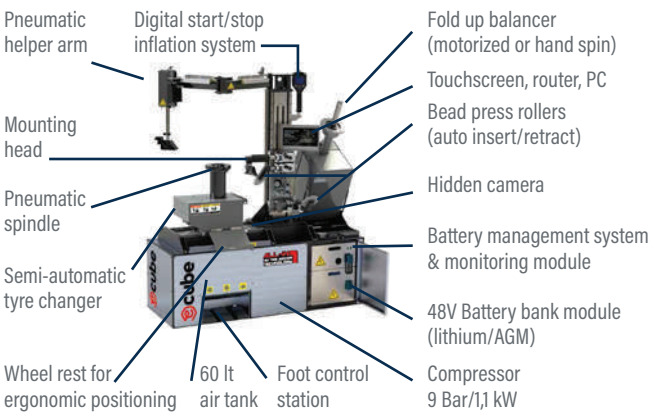

ITEM **ST890**

eCube all-in-one mobile tyre servicing

The eCube is a compact and lightweight mobile tyre changer that combines all the necessary tools for traditional tyre service into one. Its design allows mechanics to work upright inside any light commercial vehicle or trailer, without the need for a generator. The eCube can handle tyre sizes from 10" to 24", with a maximum wheel diameter of 40". Designed, engineered & manufactured in the EU.

2 YEAR WARRANTY

- Requires just 1.1m²/12ft² of floor space
- 48V premium battery bank - lithium or AGM
- Works on a wide range of tyre sizes
- Guarantees workshop quality in your customer's driveway
- Easy to install
- Cold climate? Doors closed – full functionality
- Massive cost savings on idling engine

Wheel balancers

ITEM **ST415**

ST415 Digital Wheel Balancer

- Italian design & technology
- 5 ALU and 2 ALU Smart balancing programs
- Auto start-stop with electromagnetic wheel positioning
- German Haweka Quick Lock clamping system
- 40mm shaft fits standard industry accessories
- Manual data input

2 YEAR WARRANTY

ITEM **ST420**

ST420 Automatic Input Wheel Balancer

- Italian design & technology
- 5 ALU and 2 ALU Smart balancing programs
- Automatic data input for faster setup
- Auto start-stop with electromagnetic wheel positioning
- LED inner-wheel illumination
- Optimisation and split-weight functions
- German Haweka Quick Lock clamping system

2 YEAR WARRANTY

ITEM **1692501013**

G.30P Automatic Wheel Balancer

- Pneumatic quick-lock clamping
- Automatic distance and diameter measurement
- Wheel guard sonar measures rim width
- Fast 4.7-second measuring cycle
- Internal laser guides weight placement
- Auto Adaptive Mode minimises residual imbalance
- 17" glove-friendly touchscreen
- Split program hides weights behind spokes

2 YEAR WARRANTY

ITEM **1692501003**

G.50P Automatic Wheel Balancer

- Pneumatic quick-lock clamping
- Automatic distance and diameter measurement
- Wheel guard sonar measures rim width
- Fast 4.7-second measuring cycle
- Automatic stop at the correction position
- Internal laser guides weight placement
- 19" glove-friendly touchscreen
- One Plane Balancing reduces weight use

2 YEAR WARRANTY

ITEM **WB2015**

V585 Automatic Wheel Balancer

- Automatic width gauge
- Safety cover with automatic start-stop
- SPLIT - Split weight function
- AFC - Automatic Flange Calibration
- APS - Automatic Positioning System
- 17" LCD monitor with a user-friendly interface
- ALU-SE guided application for stick-on weights
- Self calibration / self diagnostic

2 YEAR WARRANTY

ITEM **1692501018**

G.60P Pro BMW Diagnostic Wheel Balancer

- 3D laser scanner with contactless wheel recognition
- Automatic distance, width and diameter measurement
- Automatic radial runout measurement during balancing
- HubMatch minimises tyre and wheel vibration
- Pneumatic quick-lock clamping
- 19" glove-friendly touchscreen
- BMW-specific centring equipment included
- BMW equipment number: 13 503 082

2 YEAR WARRANTY

BMW DIAGNOSTIC

ITEM **ST480**

ST480 Truck Digital Wheel Balancer

Switches between truck and car modes, with automatic input for distance and wheel diameter. Includes an integrated wheel lift.

- Stud mounting cones
- Passenger centre hole cones
- Light truck centre-mounting cones
- Weight pliers
- Rim diameter: 8"-28"
- Maximum wheel diameter: 1250mm
- Motor power: 370w
- Rotating speed: Car 120 rpm, Truck 80 rpm

2 YEAR WARRANTY

Wheel aligners

BEISSBARTH MESSBAR BESSER

Q.Lign Fixed Overhead Systems

- Fixed 2.8 m overhead beam with four cameras
- Measures at platform heights from 0-2,000 mm
- Active MEMS maintains a constant gravity reference

Choose post or wall mount

ITEM **1690800002**

Post-mounted with Q.Grip Clamps

- Fast rim-contact-free clamping
- 27-inch monitor operation

ITEM **1690800012**

Q.Lign 360 Wall-mounted

- No trolley or supporting column
- Tablet control keeps the alignment bay clear

ITEM **1690200001**

Q.Lign Compact Wheel Aligner

- Web-based 3D wheel alignment
- Q.Grip clamps mount without rim contact
- Wireless sensor heads with integrated OLED displays
- AutoID targets can be fitted to any wheel position
- Runout compensation at any lift height

BEISSBARTH MESSBAR BESSER

Q.Lign OEM-Approved Systems

- Web-based wireless 3D platform
- Live values displayed on the sensor heads
- Results available throughout the workshop network

ITEM **1690200010**

MB Q.Lign Wheel Aligner

OEM APPROVED: MERCEDES-BENZ

- VIN scanning with automatic vehicle selection
- Online MB specifications and guided procedures

ITEM **1690200011**

VAS 701 011 Wheel Aligner

OEM APPROVED: VOLKSWAGEN GROUP

- Active lift control supports straight steering wheels
- Integrates with VAS 701 009 wheel-load scales

ITEM **1690200009**

BMW Q.Lign Wheel Aligner

OEM APPROVED: BMW

- Integrated digital steering-wheel level
- Automatic ride-height measurement

FASEP

ITEM **A646.010**

VCO-K ECO Wheel Aligner

- Compact PC-based alignment system
- EASY software with guided procedures
- Four wireless WinTRAX2 sensors
- Contact clamps eliminate runout compensation
- 24-inch monitor, computer and printer included

FASEP

ITEM **A669.006**

VCO-K2 Wheel Aligner

- MAXI software with guided 3D procedures
- Four wireless WinTRAX2 sensors
- 10-26 inch contact clamps
- Heavy-duty 2,200 kg turntables
- Deluxe mobile cabinet

HOISTS

Single and 2-Post Hoists

1T

ITEM **LTSM1000**

LTSM1000 1 Tonne Single Post Lift

- Designed for ride-on mowers, ATVs and golf carts
- Adjustable platform width suits different wheel tracks
- Low 57 mm loading height with 1,800 mm maximum lift
- 24 V push-button control and 2.2 kW hydraulic power pack

2 YEAR WARRANTY

3T

ITEM **LTSM3000**

LTSM3000 3 Tonne Portable Single Post Hoist

- Portable wheeled base for flexible positioning
- 3,000 kg lifting capacity
- 1,825-1,971 mm lifting height
- Manual double-lock safety release

3 YEAR WARRANTY

4T

ITEM **LT240B**

LT240B 4 Tonne Base Plate Two Post Lift

- Base plate design suits low ceilings
- Four three-stage lifting arms
- Automatic arm restraints and release
- Electromagnetic safety lock release

3 YEAR WARRANTY

4T

ITEM **LT240CFSP-K**

LT240CFSP-K 4 Tonne Clear Floor Two Post Hoist

- 3,900 mm overall height
- Three-stage asymmetric lifting arms
- Automatic upper-limit shut-off
- Single-point manual lock release

3 YEAR WARRANTY

4.5T

ITEM **LT245CF**

LT245CF 4.5 Tonne Clear Floor Two Post Hoist

- 4,500 kg lifting capacity
- Three-stage asymmetric Ezi-reach arms
- Direct-drive hydraulic cylinders
- Single- or three-phase options

3 YEAR WARRANTY

4.6T

ITEM **LT246CFPRO**

LT246CFPRO 4.6 Tonne Clear Floor Two Post Hoist

- Symmetric or asymmetric installation
- Fully sealed twin hydraulic cylinders
- 90 mm low-profile telescopic lift pads
- Electric safety lock release with timer

5 YEAR WARRANTY

6T

ITEM **LT260CFPRO**

LT260CFPRO 6 Tonne Clear Floor Two Post Hoist

- 6,000 kg lifting capacity
- 4.8 m structure for tall commercial vehicles
- Adjustable cross-member height
- Electronic safety release with timer

5 YEAR WARRANTY

Nussbaum

ITEM **AB107022-2530**

Top Lift 2.40 TLK 4 Tonne In-ground 2-Piston Lift

Nussbaum's in ground lift delivers an unprecedented level in vehicle accessibility. This electro-hydraulic two piston lift has double jointed arms for precision lifting point placement. The cylinders are hard-chrome plated for protection.

3 YEAR WARRANTY

› Pivotable › Telescopic

4T

Capacity:	4000 kg
Pick up pad height min:	96 mm
Lifting/lowering time:	35 sec
Lifting height:	2033 mm

3.5T

Nussbaum

ITEM **SL235.6000024D**

Smart Lift 3.5 Tonne Two Post Hoist

- German-made electromechanical design
- Adjustable top connection for low ceilings
- Three-stage asymmetric lifting arms
- Automatic arm locking and safety nut

3 YEAR WARRANTY

4T

Nussbaum

ITEM **SL240.2000014D**

Smart Lift 4 Tonne Two Post Hoist

- German-made electromechanical design
- Universal arms suit cars and long-wheelbase vans
- Adjustable top connection for flexible installation
- Low-wear Poly-V belt and Nylatron nut

3 YEAR WARRANTY

4.6T

Nussbaum

ITEM **SLH246.1000014D-7016**

Power Lift SLH 4600 Advanced UNI Two Post Hoist

- 4,600 kg lifting capacity
- UNI lifting arms suit cars, vans and transporters
- Space-saving design with no floor connections
- Electric safety-latch control for efficient operation

3 YEAR WARRANTY

6.5T

Nussbaum

ITEM **HL265.2000034D-7016**

HL265 6.5 Tonne Two Post Hoist

- 6,500 kg lifting capacity
- Double-jointed arms cover varied vehicle sizes
- Patented SST locking at every lifting height
- Low-maintenance hydraulic operation

3 YEAR WARRANTY

4-Post Hoists

4T

STEINER

ITEM **LT440M**

LT440M 4 Tonne Four Post Service Lift

- 4,000 kg capacity for service or alignment work
- Electro-air controls with air-released safety locks
- Skid-resistant diamond platforms
- Option to upgrade to an alignment hoist

3 YEAR WARRANTY

5T

STEINER

ITEM **LT450PRO**

LT450PRO 5 Tonne Hydraulic Four Post Hoist

- 5,000 kg safe working load
- Adjustable platform width
- Four-point electric and cable-failure safety locks
- LED cycle counter and emergency-stop controls

5 YEAR WARRANTY

5T

STEINER

ITEM **LT455A**

LT455A 5.5 Tonne Hydraulic Four Post Alignment Hoist

- Electro-air controls with air-released safety locks
- Dual mechanical safety protection
- Adjustable turntable positions suit varied wheelbases
- Single- or three-phase options

3 YEAR WARRANTY

6T

STEINER

ITEM **LT460APRO**

LT460APRO 6 Tonne Hydraulic Four Post Alignment Hoist

- 6,000 kg main lift with twin 3,000 kg rolling jacks
- Galvanised, pre-stretched lifting cables
- Adjustable ratchet rails support precise alignment
- Spring-loaded safety hooks protect against cable failure

5 YEAR WARRANTY

6.5T

STEINER

ITEM **LT465**

LT465 6.5 Tonne Hydraulic Four Post Service Hoist

- 5,500 mm runways suit long-wheelbase vehicles
- Adjustable turntable positions

SERVICE CENTRE

Brake Testers

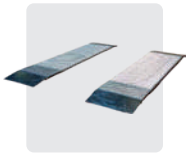

Hoist & Garage are certified installers of Sherpa brake testing systems suitable for WOF inspections, re-registration inspections and new vehicle registrations.

NZTA APPROVED - contact our team for further information, configuration advice and detailed documentation.

SHERPA

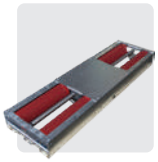

ITEM **BPT4000**

PPS 101 Eco D 200 Plate Brake Tester

ABOVE GROUND

- Cost-effective 4 tonne plate brake tester
- Overfloor installation requires no foundation
- Low 50 mm test-panel height
- Wear-free strain-gauge measuring system
- LED or PC display options
- NZTA Approved

SHERPA

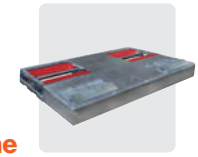

ITEM **BR4000**

BPS Compact-XT-4220 Roller Brake Tester

IN GROUND

- For cars and transporters up to 4 tonne axle load
- Hot-dip galvanised closed roller set
- Test program for electronic parking brakes
- 800–2,200 mm track-width range
- Twin 3 kW motors with 5 km/h test speed
- Expandable into a complete test lane
- NZTA Approved

SHERPA

ITEM **BR4000SH**

Sherlane Brake & Suspension Test Lane

IN GROUND

- Combined brake and suspension testing
- Roller set handles up to 4 tonne traversable axle load
- Optional side-slip tester completes the inspection lane
- Hot-dip galvanised roller assembly
- Analogue, PC or combined display options
- NZTA Approved

Tyre Scanners

Beissbarth's Easy Tread 2.0 automatically checks tyre condition as each vehicle enters or leaves the workshop. It delivers clear, immediate results that help identify tyre, wheel-alignment and potential ADAS service opportunities.

BEISSBARTH MESSBAR BESSER

ITEM **1691200050**

Easy Tread 2.0 Above-Ground Tyre Scanner

- Automatic tyre-wear analysis and diagnosis within seconds
- Scans vehicles travelling at up to 8 km/h without stopping
- Measures tyres in both directions of travel
- Automatic number-plate recognition links results to each vehicle
- Live results available on connected TVs, tablets and smartphones
- Connectivity Kit supports workshop and dealer-management integration
- No moving parts for low-maintenance operation
- Above-ground modules and drive-on ramps included

2 YEAR WARRANTY

Cabinetry

STEINER

Steiner Modular Workshop Cabinetry

Your workshop, your solution

Steiner modular cabinetry can be configured around the way your workshop operates. Combine work centres, shelving, drawer storage and utility trolleys to create a durable, organised system for your team and space.

We'll work with you to create an efficient, visually coordinated workshop that supports your day-to-day workflow.

- Durable powder-coated finish resists scratches and solvents
- Full-extension, auto-return ball-bearing drawer runners
- Drawer load capacity: standard 45 kg / wide 70 kg
- Ergonomic anodised handles with a scratch-resistant finish
- Single-key locking system
- Drawer liners included
- Adjustable feet for stable installation

Every workshop has different requirements. Your cabinetry layout can be tailored to your workflow and specified in your brand colours. Standard finish: RAL 7016 grey.

Every brand. One team.

H&G HOIST & GARAGE
COMPLETE SOLUTIONS FOR AUTO WORKSHOPS

WORKSHOP SERVICING

Your workshop doesn't run on one brand of equipment, so why manage multiple service providers?

Whether your equipment came from us or someone else, Hoist & Garage can look after it all through one tailored service programme. One point of contact. One service history. One team that understands your workshop.

A Hoist & Garage service programme includes:

- Annual certification
- Preventative servicing
- Calibration
- Repairs
- Every major brand

Annual certification

Qualified technicians inspect and certify your hoists to AS/NZS 2550.9, with every inspection recorded against your equipment's unique QR code. We'll even remind you when certification is due.

Preventative servicing

Regular maintenance designed to identify wear before it becomes downtime, helping extend equipment life and reduce unexpected breakdowns

Calibration

Wheel aligners, balancers and brake testers calibrated to manufacturer specifications, helping maintain accuracy and confidence in every job.

Repairs

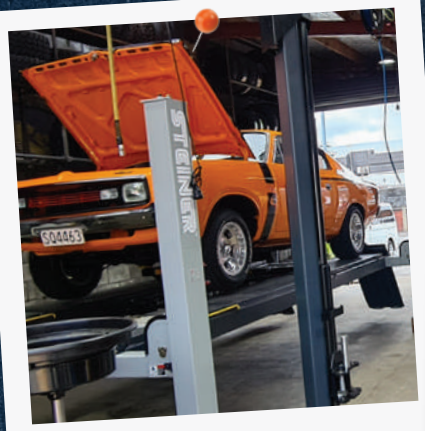

When something needs attention, we'll come to you with your equipment history already at hand, helping get your workshop back up and running as quickly as possible.

Every major brand

Our technicians work across virtually every major workshop equipment brand, allowing you to manage your entire workshop under one service programme—not just the equipment we supplied.
